

The Aura Flex F Profile is a precision-engineered aluminium channel designed to deliver a clean, flush, and refined finish for LED flex installations.

Its distinctive F-shaped design allows for seamless edge integration, making it ideal for applications where a discreet yet professional appearance is essential.

Suitable for both interior and exterior use, the profile enhances heat dissipation while providing protection against dust, moisture, and mechanical impact. Designed for ease of installation and long-term durability, the Aura Flex F Profile supports electricians, architects, and designers in achieving high-quality, aesthetically seamless lighting results.

FEATURES
